

HECO-TOPIX®-plus Therm

Product information

- Pressure forces are conducted directly into the rafters through the secondary thread
- Increased load capacity thanks to the under-head thread
- Can be used for common insulation materials
- Calculation certificates via HECO HCS calculation software or calculation service
- Approved and monitored product (CE-marking)

The wood screw for on-rafter insulation using soft insulating materials

Countersunk head with milling grooves

For an easy sinking of the head in the wood

GripFit®

Single-handed working possible thanks to the HECO-Drive

Secondary thread

Transfers compressive loads directly into the rafter

PerfectPitch®

Optimal thread pitch for every screw length

HECO-TOPIX tip

Eliminates the need for pre-drilling, reduces the risk of the wood splitting
