Partition Wall

Hinge range for partition walls

Hinges designed to be versatile for all applications and design styles.

SFS has been designing and creating hinges for a variety of needs and applications for 50 years, providing customised solutions for all door and window manufacturers.

Partition Wall is a range of pivot and concealed hinges, designed to be utilised in the construction of doors for fitted walls and to ensure a high degree of creative expression for any interior designer.

Practical, robust and effective, all hinges in the Partition Wall range offer extraordinary smoothness and ease of adjustment, a unique feature of these hinges in the sector.

Partition Wall is a range for both right and left doors that is extremely easy to assemble and requires no maintenance over time.

Like all SFS products, the hinges are subjected to strictly controlled durability tests, which include 200,000 opening and closing stress cycles.

CAB-V

Pivot hinge for single glazing

Design solution for a single glazed fitted wall with non-adjustable hinge.

CAB-V is a hinge created to meet aesthetic design criteria with a lightweight appearance to enhance glass doors for loads of up to 100 kg.

CABR-H

Pivot hinge for double glazing

Design solution for a double glazed fitted wall for heavy doors.

CABR-H is a minimalist hinge created to emphasise door design and the environment that is able to support considerable double glazing loads of up to 160 kg.

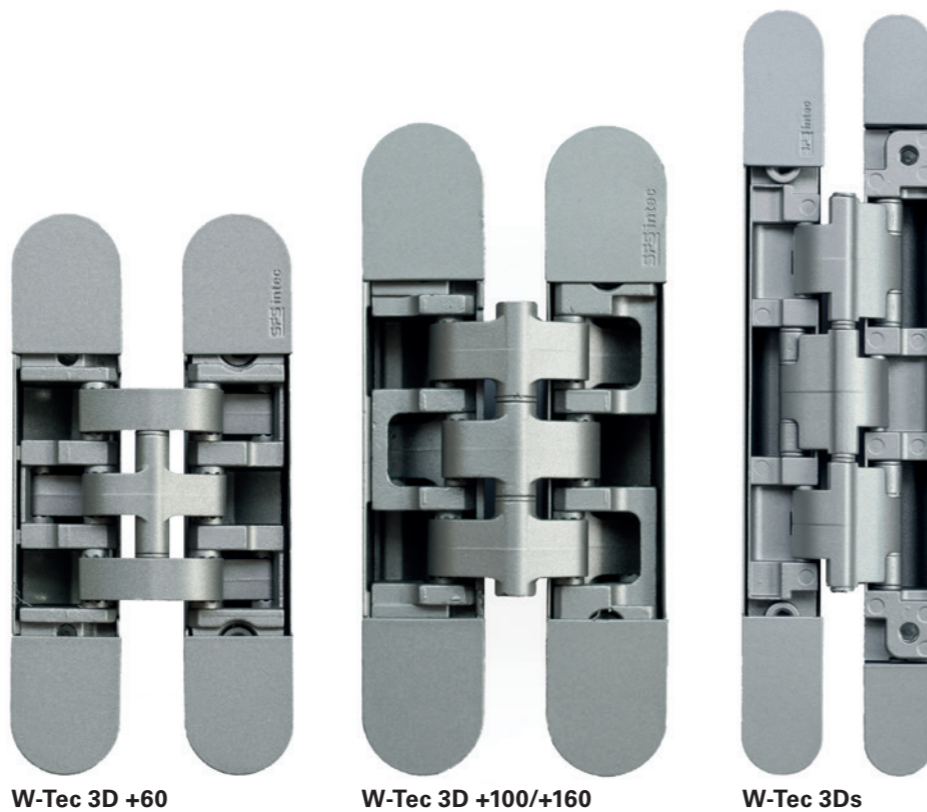

W-Tec 3D +60, +100, +160, s

Concealed hinges

Concealed design solutions for timber flush fit doors and aluminium frames.

W-Tec 3D is a hinge range for timber frames, cover frames or steel frames, to be used on doors with loads from 60 to 100 kg or with narrow profiles to seamlessly blend into the door and the design of the environment.

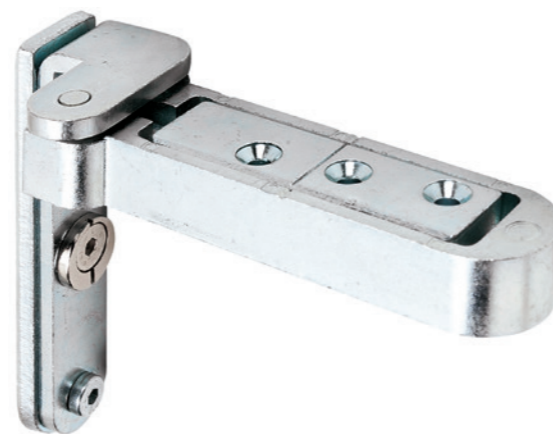

CIR

Invisible pivot hinge

**Invisible to the eye, robust, durable
and technically advanced.**

This hinge is the essence of minimalist style and design as it is invisible to the eye despite its elevated technical features in terms of the simplicity of its adjustment, durability and functionality.

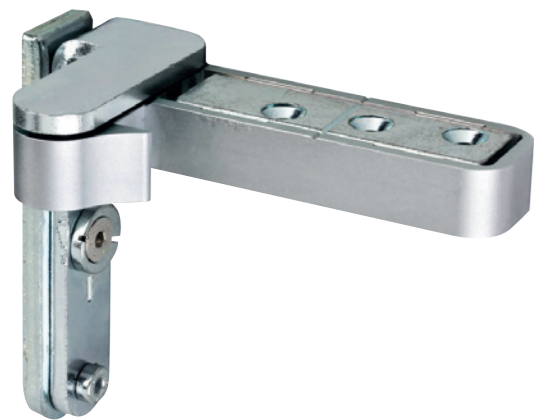

CAB-R 3D, 022

Pivot hinges

Minimalist design and cutting-edge technology.

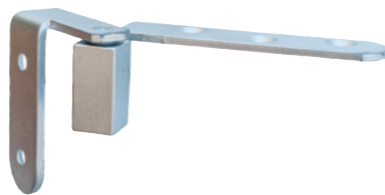

Design, load capacity, ability and versatility are the main features of these high value-added, pivot hinges that meet the aesthetic requirements of modern design and structural needs demanded by leading interior door manufacturers who do not wish to compromise on anything.
