

HECO-TOPIX®-plus Decking screws

Product information

- Reduced splitting of timber due to the HECO-TOPIX tip with milling ribs
- Small head with milling ribs for easy and neat countersinking
- Special coating for lower driving torques
- Can be used in hardwood (predrilling recommended)
- Shank ribs reduce the insertion torque
- Stainless steel A2 and A4 for outdoor construction work
- Approved and monitored product (CE-marking)

The standard decking screw with part thread

Small head with milling ribs

For an easy sinking of the head in the wood

Shank ribs

Permit easy, stress-free driving

HECO-TOPIX tip

Eliminates the need for pre-drilling, reduces the risk of the wood splitting

GripFit®

Single-handed working possible thanks to the HECO-Drive

PerfectPitch®

Optimal thread pitch for every screw length
